Our mission is to Make Technology, Design - Simple, Accessible and Affordable. Twister Media eliminates technology obstacles, helping you to work faster and smarter.

Twister Media Offer various services to make Design and Solutions close to Customer Satisfactions.

From Small Business to Enterprise's, Twister Media has Unique Solutions.

Twister Media works with each Clients to meet their needs and understand their requirement's to provide them the best solutions in their Own Budget.

### WE DELIVER INNOVATIVE SOLUTIONS WITH OUR 6 PHASES OF DEVELOPMENT

#### FINDINGS

It is a crucial phase where we qualify the project information rendered by client and envision the requirements into practical plans.

#### ANALYZING

We realize the significance of this phase as we conceptualize logical, and design solutions and map them to practical perfection here.

#### DEVELOPING

Developing architecture and design solutions is initiated which identifies the project team structure and team members' responsibilities

#### TESTING

Once the software is ready it is thoroughly tested for different errors by forming various test cases to assure it as error-free.

#### DELIVERANCE

The product or application is loaded on test server for rigorous testing. Eventually the product is delivered to client with high-quality.

#### SUPPORT

After-sales service is provided for resolving usability problems, bugs or conflicts along with on-demand updates.
